Supplier Specifications**

All of the following criteria must be met to participate in Dem-Con Shingle Processing's recycling program. Dem-Con reserves the right to reject any load that does not meet the criteria.

1. Shingles delivered must be from a residential dwelling of 4 units or less as defined as a non-regulated facility in NESHAP 40CFR. Part 61 Subpart M.
2. Shingles must be a single layer tear-off project.
3. If the material is from a regulated building, proof must accompany each load that an asbestos survey was taken and all asbestos, if detected has been abated and is not included in the current delivered material. The survey and abatement certification documentation must be received prior to acceptance by Dem-Con.

The following are the specifications for delivery and materials that may be included in the load to be processed:
